

Stepping towards perfection  
catalyzed through  
**Technology**

iTouch Lectern is a smart presentation device that comprehends your teaching needs to deliver you an unparalleled interactive atmosphere for a complete indulgence. Reflect your thoughts precisely with notes projected on a larger screen with your slight touch on interactive monitor. Experience the power by controlling the subject and student with advanced computer applications.

## Interactive Teaching Tool

“Virtual Interface to connect with students” is the idea behind iTouch lectern by means of larger display through projector and visualizer. Prepare, deliver and share the digital content by connecting the smart podium to interact efficiently with the students at a common platform or remote. Fusion of verbal and visual teaching methods is the true interaction that leaves indelible impressions on students' mainframes.

## Flexible & Versatile

Referring the book is no more verbal as it can be projected on the screen using multifaceted visualizer. Share digital content by opening relevant URLs to enhance the learning objective. Blending with the workspace irrespective of size, from small classrooms to large auditoriums, it delivers the message accurately. Being flexible iTouch Lectern proves to be versatile performing multiple tasks in one go.

## Smoothly Write

Say Goodbye to chinks and pens because your finger can do wonders. Write fluently with your hand on the touch screen while maintaining the prime eye contact with the students. Roll your finger on interactive screen to control multiple applications while sharing the significant images and videos with the students rendering them a real time learning experience.

## Resonance

Interest and excitement live till the sound echoes in the ear and classroom is no exception to it. iTouch Lectern is equipped with powerful amplifiers & speakers to empower the classroom with new enthusiasm for student to absorb and learn with unique energy, positive attitude and alertness.

## Perpetual Learning

Promising strong power back-up to uphold your classroom sessions to the best iTouch Lectern meets the ideal definition of smart teaching device. No more power failures to bother your teaching style promising meticulous class experience.

## Static & Dynamic

Stand static to deliver the dynamic learning classes. No more jumping from the point of computer to the point of projector then to visualizer and other paraphernalia. Stand on “all in one” the iTouch Lectern to enhance the learning process.

## KEY FEATURES

**Save & Share:** Prepare lecture for once and deliver for infinite times using high tech lectern. Take the opportunity to record the lecture in your voice to share with different people at diverse platforms ensuring unique uniformity.

**Screen:** The advanced LED touch screen of 23" gives you ample space to keep your ideas fresh in the vast universe for a remarkable teaching experience.

**Safety:** "All in one" smart podium gives you the freedom to lock the different independent segments of the device as per your will.

**One Time Calibration:** You need not calibrate the equipment each time before using the device as it is onetime calibration machinery and too will be done by our professionals.

**Finger/Dummy Pen:** No technical gadgets are required to write on the interactive screen as your finger or a dummy pen can smoothly roll over it. This feature makes the smart podium cost effective saving you from extra expenditure on digital pens over the periods as finger can do all the jobs.

**Advanced Software:** To make the learning impactful the iTouch Lectern is equipped with advanced software programs enriching your teaching methods.

**Remote Teaching:** Absentees can attend the live lecture being at any remote point and thus this feature proves to be significant for distance learning courses.

**Comprehensive Smart Classroom:** iTouch Lectern is iconic teaching equipment that completes the definition of smart classroom comprising of multimedia computer, visualizer, projector, mikes, amplifiers and speakers.

**Multimedia:** Record and play CDs, DVDs, Flash Drives, etc supporting all formats of files.

**Dynamic Library:** With bulk storage capacity iTouch Lectern acts as a dynamic library wherein you can save and retrieve the information with a touch of your finger.

**Convenience:** External panel ports make the smart podium user friendly.

**Power Backup:** Smart lectern is fitted with uninterrupted power supply ensuring unique continuity.

**Visualiser:** Information in hard print like books, charts, etc can be projected on the large screen.

**High Resolution Projector:** The bigger screen promises higher reach widening the eye lens of each student with 100% clarity.

**Mobility:** iTouch Lectern is technology on wheels that can be moved easily from one classroom to another.

**High Quality Sound:** Integrated sound system constituting goose neck mikes, amplifiers and speakers promises accurate lecture delivery with rare sound clarity.

**Support:** One year comprehensive warranty from OEM.

## SPECIFICATIONS

### Lectern

Size	24"X 24"X 42"
Body	Wooden / Metallic
Storage	Side drawer for Visualizer, CD Drawer, Keyboard Drawer, Cabinet with shelves
Ports	4 USB & 1 VGA

### MONITOR

Touch Device	Finger/ Pen/ any other opaque object
Induction	Infrared
Screen	HD LED Slim
Diagonal Size	23"
Touch Sensitivity	8 ms

### CPU

Processor	Core i3
HDD	500 GB
RAM	2 GB
Optical Device	DVD R/W

### SOUND

Amplifier	60Watt
Mike	1 Goose Neck, 1 Collar (Optional), 1 wireless Mic (Optional)
Speaker	1 in-built, 4 (Optional)

### VISUALISER

Camera	1/4" CCD / CMOS
Zoom	Optical 22x, Digital 8x
Features	Positive/Negative Mirror, Black -White/Colour, Freeze, Auto/Manual Focus
Control	Brightness, Contrast, Sharpness, Red, Blue
Ports	VGA IN, VGA OUT, S-Video, USB, RS 232

### UPS

Load	Line Interactive 1KVA
Backup	45 to 60 min

### ACCESSORIES

Multimedia Projector, Projector Trolley, Projection Screen

\*Product can be tailored as per your requirement.
